

Leveraging Resident Technological Expertise to Improve Multimodality Teaching: The Millennials Finally Give Back

Christian Dameff MD MS
Chief Resident
Maricopa Medical Center

Outline

Notes

Question #1

 How do I identify residents with exemplary technical expertise among a sea of digital natives?

Question #2

 How do I inspire these residents to digitally innovate in a curriculum they are undergoing simultaneously?

Outline

Notes

• Question #3

— How do I identify worthwhile projects ripe with digital potential for these residents to tackle?

Question #4

 How do I support these residents in accomplishing technically challenging projects when I myself know little about the digital frontier?

Outline

Question #5

 How do I structure these projects into quality improvement or research to satisfy graduation requirements?

Question #6

 How do I sustain these projects after the residents graduate?

Notes

Curriculum Checklist Notes ☐ Essential? ☐Redundant? □Manual? ■Social? □Slow? □Mocked? □Bypassed?

Pearls & Pitfalls Notes One project begets another Good solutions are free Great solutions cost a fortune HIPAA is supreme Innovation is iterative
