Best Practices in Residency Education – CORD 2018

Instructions for speakers: Please complete this form to the best of your ability on your upcoming lecture. These will be given to all attendees to keep for easy reference. Feel free to modify this form as you see fit. Please keep it to ONE PAGE if possible.

Session title	The Nitty Gritty: What can Grit scores tell us about EM residents?
Speaker name (s)	Nathan Olson
How this info can change current practice	We are beginning to understand the impact that non-cognitive traits have on residents, their training, assessments and competencies
Major teaching point #1	Grit assessments may be able to help determine at-risk residents
Major teaching point #2	Non-cognitive traits are part of competency-based education and need further assessment to understand what information they may provide to enhance resident training
Major teaching point #3 (as needed)	Faculty have a challenging time assessing their residents across a range of domains and with different tools
Helpful resources for more information	Grit: The Power of Passion and Perseverance By Angela Duckworth
Who to contact for more information	Nathan Olson natewolson@gmail.com
